

The environment is MacOS.

1 Install Emacs

```
brew cask install emacs
```

2 Install MacTex

<https://tug.org/mactex/>

3 Problems

3.1 pdflatex

- Find the pdflatex path

```
type pdflatex # or  
which pdflatex
```

- Add the following line into .emacs

```
(setenv "PATH" (concat (getenv "PATH") ":/Library/TeX/texbin"))
```
